

Long Lake Camp Travel Requirements

Please note the **only** ways to transport your child to and from Long Lake are the following.

1. Drive your child to camp yourself and also pick them up at the end. We can also take your child back to Albany airport to fly home to you.
2. Take the camps coaches to camp and then come to pick up your child at the end, we can also take them to Albany airport to fly home to you.
3. Fly your child to Albany airport where we will meet them, then you can come to collect them at the end or we can take them back to Albany airport to fly home.
4. You can fly a private plane to Saranac Regional airport then arrange for a car service to be waiting for you.
5. Take a seaplane to land on Long Lake and dock at our beach.
6. Take a helicopter to land on our sports fields.

Very Important.

- We DO NOT use any other airports, Albany is the only airport we can pick up and drop off at.
- We DO NOT pick up or drop off ANY campers from JFK, La Guardia, or Newark.
- You must please call us or email us your planned itinerary BEFORE paying for your trip and we need to know both the inbound and outbound days and times. We will then make sure the dates and times are perfect and confirm your travel arrangements.
- If you make travel plans that fall outside of the requirements above we may cancel your enrollment with no refund. Please note that we are always as accommodating as we can be but we must have very good communications from our parents about your travel plans to ensure a safe and speedy trip for your child.

We appreciate your help in making this year's travel plans go well.
